

Concierge Pool Closing Service - Solid Cover

Description

Concierge level pool closing services for residential, in-ground pools provide pool owners an all-inclusive service for closing pools with a solid cover, (ballasted).

Services Include

- Drain pool to proper level for winter.
- Blow lines clear of all water.
- Remove lights from niche, attach rope and hang in pool for winter.
- Draw pool anti-freeze thru skimmer, return lines, as applicable, and verify each end, (anti-freeze included).
- Blow main drain line clear of water, close valve for air lock.
- Remove deck equipment and place for storage.
- Remove plugs from circulation equipment.
- Drain and prepare all circulation system equipment for winter.
- Blow water from all circulation equipment.
- Turn off power and gas supply to equipment.
- Empty all chemical feed equipment.
- Clean filter and leave on deck for winter storage.
- Deactivate any automatic fill valves and devices.
- Vacuuming and skimming of light debris, excessive debris will be charged in addition at T&M
- Winterizing of water features, cleaners, in-floor systems, fountains, slides, sprayers, etc.
- Add winter chemical treatment to help prevent algae from forming, (Chemicals sold separately).
- Install solid cover over the pool per cover specifications.
- Install water bags (ballasts) to secure the cover.

Options

- Missing winterizing plugs and fittings are not included in pricing and will be installed and added to final bill.
- Vacuuming and skimming of excessive debris in pool, due weather conditions or late season closings.
- Heater seasonal cleaning, overhaul, or tune up to eliminate any operational troubles at opening.

Notes

- Owner responsible to have all winterizing plugs and fittings onsite at time of service.
- We will notify you immediately of any unsafe conditions or system malfunctions.
- Domestic water (hose bib or equivalent) must be on and available to technicians at the time of service.
- Owner must indicate location and placement of discharge water.
- Any permits, (water discharge, etc.) if required, are the responsibility of the owner.

Availability

- Available in all North and Central American markets.
