

Concierge Pool Opening Service - No Cover

Description

Concierge level pool opening services for residential, in-ground pools provide pool owners an all-inclusive opening service for pools that were closed without a cover.

Services Include

- Removal of all winterizing plugs and equipment.
- Drain all lines of anti-freeze.
- Re-assemble and install deck equipment, ladders, rails, diving board, and underwater lights.
- Re-assemble circulation equipment includes rinsing of filter, (pump, filter, heater, chemical feeder).
- Re-assemble and adjust water feature equipment and lines including deck jets, slides, waterfalls, pop-up jets, etc.
- Re-assemble and start-up of in-floor cleaning systems and or automatic cleaners with booster pumps.
- Initial vacuuming of winter debris, (excessive debris, algae, or pools with limited visibility is not included).
- Adjusting valves and circulation system inlets.
- Fill and adjust feeders and automation as needed.
- Start fresh water fill, (if required and automated, or someone confirmed available to shut off).
- Equipment start-up, review, and 14 point testing, (assuming water level is adequate for priming and circulation start).
- Test and adjust water chemistry, (chemicals sold separately).
- Return visits to vacuum debris, test and adjust water chemistry are included for customers with seasonal maintenance service contracts.

Options

- Return trips to start up equipment, if water level was not high enough to start on initial visit.
- Return trips to vacuum debris, test and adjust water chemistry due to low water, algae or limited visibility at initial visit.
- Heater tune-up and or cleaning to assure smooth continued seasonal operation.
- Cleaning of salt cell and or sacrificial zinc anode fitting to insure optimal performance through the season.
- Deck power washing removes dirt, grime, mold and mildew, which can lead to slippery surfaces.
- Filter deep cleaning maintains water clarity and helps system to work efficiently.

Notes

- Technicians are available 24/7/365 for emergency service through our customer care call center.
- All fittings, inlets, cartridge filters, and deck equipment must be onsite at time of service.
- Additional fees may apply due to condition of water, ie; excessive debris.
- We will notify you immediately of any unsafe conditions or system malfunctions.
- All pool supplies and chemicals provided on an "as needed" basis and added to your bill.
- Domestic water (hose bib or equivalent) must be on and available to technicians at the time of service.

Availability

- Available in all North and Central American markets.
